

Option 2 – Science Schedule Using *Our Weather and Water*

Note: This alternate schedule for Units 25-35 is for students who have already used *Exploring Planet Earth* in *Bigger Hearts for His Glory's* Extension Package. Since Heart of Dakota did not write the experiments that will be used from this resource, this option will require more supplies than usual. You will want to look over the master supply list in the Teacher Supplement for *Weather and Water* ahead of time. Needed worksheets can be downloaded from the website listed in the “Teacher Introduction” in the Teacher Supplement. Questions from “What did we learn?” and “Taking it further” can be answered on paper or done orally with a parent. We will use this resource for Option 2 mainly as written. Option 1 of the science plans includes the more typical Heart of Dakota flavor.
