*So, why not take a few minutes to see what other homeschoolers are saying about Resurrection to Reformation?*

"I love how *Resurrection to Reformation* teaches you how to love learning and love God through history. Heart of Dakota chooses the most fun and informative books to put in their programs. Since I've started using Heart of Dakota, I've really grown to love school. I can't wait to use their next program!"

"Heart of Dakota has been such a blessing to my family. Last year was my first year homeschooling, and Heart of Dakota made it so easy and enjoyable. This year we are using *Resurrection to Reformation*, and I have enjoyed watching my daughter learn so much and become more independent in her studies. Thank you for such a wonderful and God-honoring curriculum!"

"Our family started Heart of Dakota with *Creation to Christ*. *Resurrection to Reformation* has been an amazing continuation of understanding God's hand in history! Exploring the Middle Ages and the Reformation has given our whole family a greater understanding of the world we are living in right now. The beautiful notebook pages have helped us record what we are learning, giving us something to review when dad gets home. The books, the maps, and the history projects make our day fun and interesting! *Resurrection to Reformation* has brought to life a time period that has, up until now, been a mystery to me! I am learning as much as the kids, which makes our family so much closer.

Thank you Heart of Dakota!"

"*Resurrection to Reformation* is awesome! The books and projects are every bit as wonderful as those within the younger Heart of Dakota guides. Independence is one of the many skills that is taught through this guide. Because of this new found independence, I love watching my daughter get excited about what she is learning. She is always anxious and ready to share all of the amazing facts she has learned through *Resurrection to Reformation*.

Thanks again for another amazing guide!"

"What drew us into *Resurrection to Reformation*...the great books. We are using the extension package, as well as the basic, and my son enjoys all the books -- even Shakespeare!!! We have learned so much about this time period, and more importantly the information sticks with my son, since he's learning through living books. He's often saying, "Hey, mom, did you know...?"

I remain amazed at how you find such great books for your curriculum!"

"We have been so blessed by *Resurrection to Reformation* this year! I love how the information learned is intertwined with the truths of God, and then taken farther in the Student Notebook encouraging the students to picture themselves in the time period and simultaneously see God's hand in it. This guide really builds an independent love of learning and independence in coming to know God deeper and personally. We'll be using *Resurrection to Reformation* again when my younger children are ready, and honestly I can't wait!"
