*So, what do homeschoolers
just like you have to say about
World Geography?*

“Our oldest son used the *World Geography* guide this year for 9th grade. We have loved it! He loved the exploration related readings most of all, along with watching videos about those places. I was thrilled to have both World Religions and Cultures and Logic included for elective credit. As in previous guides, the notebook pages are gorgeous and create a beautiful keepsake of his year. I especially appreciate all the work Carrie has put into figuring out what is needed for high school credit. With several younger children in the mix, the planning is a huge blessing! Thank you!”

Liz in Leesburg, Virginia

“I really enjoyed Heart of Dakota’s *World Geography* for my son’s first year of high school. I did not have to plan a curriculum, schedule his school day, or search for books. That was all done for me! Even how to grade the different subjects and award the credits was included. All I had to do was teach and have a wonderful year. The living books were amazing. We are looking forward to next year with *World History*.”

Diane in Saginaw, Texas

“I loved the whole *World Geography* package this year, but my favorite part was the World Religions and all the books that went with it! I learned about so many cultures and religions, and in doing so can see how understanding *World History* next year will make so much more sense! Every year with Heart of Dakota gets better and better.”

Olivia (age 16) in Washington, MO

“I absolutely love Heart of Dakota. I have been using it since fifth grade, and Heart of Dakota literally changed our homeschooling life. I love the daily plans and easy-to-schedule projects. I am currently finishing 9th grade, and we are using the *World Geography* guide. This has by far been my favorite school year, and I will tell you, I hated anything that had to do with maps and latitudinal/longitudinal lines. The step-by-step mapping projects and fun activities changed that! I also loved the writing curriculum and the Bible Study. Thank you Mrs. Austin for another amazing year!”

Savannah (age 15) in Pelahatchie, Mississippi

“I really enjoyed the *World Geography* books. I never thought I’d say that about any books, but the books Mrs. Austin picks are really thought provoking. I can get into them, and they keep my attention. I see how everything I am learning ties together, and it makes the learning a lot more interesting. Looking forward to using the *World History* guide for my senior year!!!”

*Ryan (age 18, used with additions for his junior year)
in Washington, Missouri*

“I wanted to say that my daughter really enjoyed the mapping from the *World Geography* guide. It was her favorite part of the plans! Thanks so much!”

*Charlene in Warwick,
Rhode Island*
