So, what do homeschoolers just like you have to say about U.S. History II?

"*US History II* was the perfect way to end our journey through homeschool. My kids were fully prepared for college and beyond with the amazing resources in this year of study. From the personal finance course to the public speaking course to the worldview study that prepared them to face the pressures of a secular world outside the home to the always excellent literature, history, and science (my kids' favorite science year yet), I do not believe there is anything out there to compare with the thorough, interesting, Biblical education that HOD has provided for our family. My three HOD graduates have done exceedingly well in college and in the workplace, and HOD plays a large part in their success. Thank you, Heart of Dakota!"

Tiffini in Avon, Indiana

"*US History II* has been such a blessing to our family. My son has learned to love history even more in high school, and your books and choices have definitely fed and encouraged that interest. I am grateful for the well laid out lesson plans for the students to follow as well."

Mandi in Sedalia, Missouri

"Where do I start? The book choices are excellent! An enjoyable selection that is thought provoking and stimulating, while not heavy. HOD not only teaches the facts of history but also the why's and wherefore behind the happenings. Each student is being challenged to deepen their knowledge of world happenings, past and present, while developing a close walk with our Saviour on a day by day, moment by moment basis. What a great finish to the high school years! I only wish we could have started with it in the beginning of our homeschooling journey 23 years ago!"

Salome in Manitoba, Canada

"HOD helped us to meet the home-educational goals we had for our son with exceptional academic rigor, vital character building, and rich spiritual training. So many of the wonderful stories he's read and discussions we've been able to have through HOD have helped strengthen his character and his walk with the Lord. Our son will be attending the University of South Alabama in the fall on a full-tuition scholarship and majoring in Mechanical Engineering. Most importantly, HOD has aided in equipping him for the world that he'll be heading into as a young adult, strong in his faith in Jesus Christ. I can't begin to thank you enough!"

Miranda in Moss Point, Mississippi

"We're very thankful for the hard work Carrie and her family have put into creating these guides! Our son has grown in wisdom and understanding of history and the Bible, of poetry and literature, of the sciences and maths in a way he never could have if it were left to me to gather all the parts to make such an incredible whole curriculum. The CM schedule has allowed him to pursue his gifts and interests in music throughout the years. Additionally, the gift of a deep and wide knowledge of history and literature from HOD has made CLEP testing an economical way to gain college credit pre-enrollment."
